

Every Day Applique

a free project for

Janome

by Olivia Jane Handcrafted

Materials Needed:

a ready made tablecloth
some fabrics that you love.- I'm using 10 Liberty prints that make me smile
interfacing
wonder under (optional for fusing shapes- I didn't use it here)
thread that coordinates with your fabric
bunny template, if using (you can choose your own shape!)
scissors, a pencil or water soluble pen, and pins

Quick instructions:

Cut 6"x10' pieces from your fabrics and interfacing. This is large enough to fit the bunny, but if you are using a different template, just be sure to cut pieces that will fit your template. Fuse interfacing to fabric following manufacturers directions. If you are planning to use Wonder Under to fuse your template to your tablecloth, go ahead and fuse the first side. Leave the paper backing for now.

Trace template onto wrong side (interfaced or Wonder Under side), and cut all pieces with sharp scissors.

Pin or fuse your cut fabric pieces to tablecloth to prepare for appliqué.

Using your desired applique stitch and foot F, stitch around each bunny.

et viola! You have taken an ordinary tablecloth and made it extraordinary! Now go grab some tea towels, and embellish them too! The possibilities are endless when you use this simple method to add a touch of YOU to everyday items.

hint: try this on bath towels, shower curtains, sweatshirts, or an old piece of clothing that could use new life
