main

lining

fusible interfacing

## SEWING INSTRUCTIONS

1. Fuse the fusible interfacing to the wrong side of the main fabric, then pin the lining fabric to the main fabric, right sides together. **Fig 1**
2. Mark the crown template five times and cut to create the crown shape. **Fig 2**
3. Using a 1/4" seam allowance, sew around the edges, leaving gaps on either end. Backstitch at the beginning and end of your sewing to reinforce the stitches. **Fig 3**
4. Clip each corner and point and clip into the seam allowance at the inner points. **Fig 4**
5. Turn crown right side out through the gaps. Push out corners and points. Press crown.
6. Add ribbons to either end, making sure it's about 1" inside the crown. Topstitch the edges to secure the ribbon and close the gaps. **Fig 5**

## OPTIONAL EMBELLISHMENTS

1. Trace the star and number shapes onto felt and cut them out.
2. Optional: If you'd like the embellishment to be interchangeable, sew a square of velcro to the center of the crown and to the back of the star shape. **Fig 6**
3. Add the number to the felt star using your preferred method (fabric glue, hand stitch, or applique).
4. Adhere the star/number unit to the crown using the velcro squares, or using glue or hand-stitching.
