

# Cell Phone Cross Body Bag

Created by: Anne Hein, Janome Educator

This project was made for the GR hoop on the MC15000.

## Supplies:

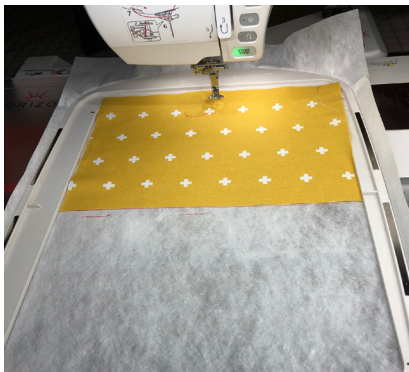

- Outer fabric - 10.5" w x 7" h
- Lining - 10.5" w x 7" h
- Ribbon - 54" of 3/8" to 1/2" width
- Tear away stabilizer to fit the GR hoop
- Embroidery thread
- Embroidery bobbin
- Tape

## Embroidery Design:

Download the embroidery design cellbag.jef and transfer to machine

## Instructions:

1. Hoop tear away stabilizer
2. Thread machine with embroidery bobbin thread and embroidery thread of choice on top
3. Stitch Color #1 - placement line for lining and ribbon/strap
4. Place lining right side up with the long edge against the line and the bulk of the fabric pushed to the top of the hoop

5. Place ribbon with raw edge of the ribbon close to the left most side and right most sides of the placement lines - tape in place. Push the bulk of the ribbon on top of the lining

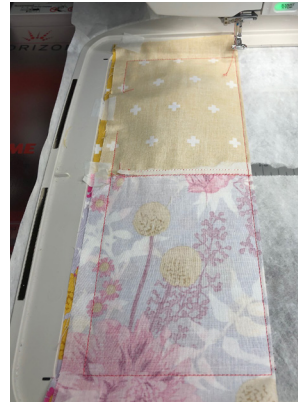

6. Stitch Color #2 - basting stitch of lining and ribbon, after stitching curl the ribbon up on top of the lining, keeping it well away from the edges - tape down

7. Place outer fabric right sides together on the lining - place the bulk of the fabric to the top

# Cell Phone Cross Body Bag

8. Stitch Color #3 - stitch down of outer fabric to the lining
9. Fold the outer fabric down, smooth the seamline - tape the top edge of the lining and the bottom edge of the outer fabric.

10. Stitch Color #4 - topstitch on outer fabric
11. Stitch Color #5 - basting/fold line for edge of bag
12. Carefully release the right edge of the bag at the seam - bringing the right side of the fabric over the part still in the hoop folding along the basting line. Smooth flat.

16. Remove from hoop, carefully remove the stabilizer
17. Trim close to the stitching and turn through the opening, whip stitch the side opening closed. Push the lining into the outer fabric

18. Enjoy!

13. Match up the seam between the lining and the outer fabric
14. Place a few pieces of tape to hold the edges down
15. Stitch Color #6
