

Cutwork Embroidery Kit

For CM17 / Skyline S9 / MC15000 / MC1000 / MC100E

Discover how to make unique patches, coasters, and more, using the cutwork feature on your embroidery machine!

1 Available for commercial use

Discover how to make unique patches, coasters, and more, using the cutwork feature on your embroidery machine!

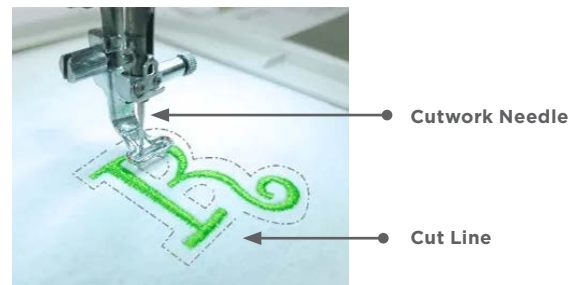

The Cutwork Embroidery Kit comes equipped with 66 designs*! Use them all for a wide range of applications.

*Download these embroidery designs by scanning the QR code printed on the back of the design download card.

2 Automatically cut the fabric

The embroidery machine automatically cuts intricate areas that are hard to do by hand. Simply replace the needle as needed.

3 Design combinations using software

To help you enjoy cutwork embroidery, this product includes embroidery designs that can be used directly with your embroidery machine, as well as 66 cutwork designs compatible with Artistic Digitizer.

Using the software, you can edit, combine, and customize these cutwork designs to create a wide variety of embroidery patterns.

Part: 202543002
